

I am writing in support of bills SB 184 and HB 5262 and the ability of all Connecticut voters to vote by absentee ballot. Voting by absentee ballot allows people who cannot get to the polls on election day, for whatever reason, to have a say in their government. This ability has been especially important during COVID, however, there are myriad reasons why people cannot get to the polls on election day. I urge all lawmakers to support these bills.

Thank you.
